

CHURCH GOER:

Historically, churches/synagogues/mosques/temples have been a safe-ish place to gather in large groups and organize.

Anyone familiar with the history of black churches, or churches under fascism, know there is potential for great good but also a risk of the church being burned, raided, bombed, or leaders being rounded up.

Whether you are a theist or atheist, consider finding a community that can gather and organize in large groups and become a regular contributing member.

As of 1/22/2025

ICE is legally allowed to raid churches, hospitals, and schools under illegal immigrant suspicion. They need a JUDGE ISSUED WARRANT. You ARE legally allowed to look at it and demand it.

MARCHER

Marches can be used for paying attention to which groups are attending.

Any group showing up with a banner is putting a giant target on themselves and they are going to need support. Volunteering with, or sending money helps them to continue showing up.

The focus of a march is disruption which can potentially lead to becoming a target.

Burner phones can be traced to you if you turned it on in your home. Don't share faces. Don't stick out. Bring water and medical supplies.

Be prepared to be pepper sprayed, smoke bombed, hit by a baton, harassed if your face is passed around among fascists, and/or arrested/imprisoned.

Note:

These suggestions are nothing new and may have to adapt to any environmental, governmental, and social changes that occur.

HOW TO RESIST AN OLIGARCHY

Oligarchy:

a small group of people having control of a country, organization, or institution.

Their Goal:

For us to be overwhelmed, to ignore/avoid the growing information, and to feel helpless.

Our Goal:

Learn and focus on what we CAN do instead of why we can't.

QUIET SUBVERSIVE

If your calling is hiding people, driving women to clinics, mailing birth control, or any illegal morally good activity, be paranoid.

Social media is not your friend. Social media apps can and will sell you out.

You have to assume your life, the lives of your family and friends, and the lives of the ones you are helping are in mortal danger.

As soon as you share, "I'll hide Ann in my attic," you are no longer safe and not useful for this kind of work.

REST

Rest can be resistance.

From what I understand, it is about self care for the long haul.

For more information, I recommend reading "Rest is Resistance" by Tricia Hersey

CREATE

Paint, write, draw, graffiti, design, music, videos, comedy.

If you are a creative person, use it to spread awareness, help raise funds, etc.

DISTRIBUTER

This can be done by printing info. or providing online links.

For groups and orgs that can take the heat, such as Planned Parenthood, sharing and boosting their posts can be helpful.

If your calling is to print up red cards/make pamphlets, then anywhere you place this info is going to be targeted for destruction of materials.

Regularly drop off info and find new ways to get the word out. For smaller groups that need to stay somewhat obscure, be selective about sharing info.

VOLUNTEER

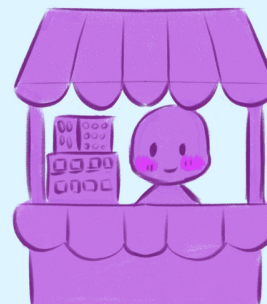

Soup kitchens, shelters, anywhere and everywhere people or animals are in need. Any and all good works towards our neighbors is resistance.

FINANCIAL SUPPORTER:

Every dollar has a potential to do good.

If you are able to put money towards a small business, especially if they are run by marginalized persons or groups, please do.

The billionaires won't be hurt and it won't stop them from aligning with fascists but it will put money into hands of those needing to escape, needing aid, or in the hands of the above mentioned resisters.

EDUCATOR

These come in many forms: building, first aid, critical thinking, self defense, fact checking, science, map reading, psychology etc.

Anything that can help the quiet subversive, the information distributor, the marcher etc. etc. be more effective; keep up the good work of long threads and videos.

If you are not an expert, share media and videos from credible experts.
